

# Dossier Pedagógico único na UA

---

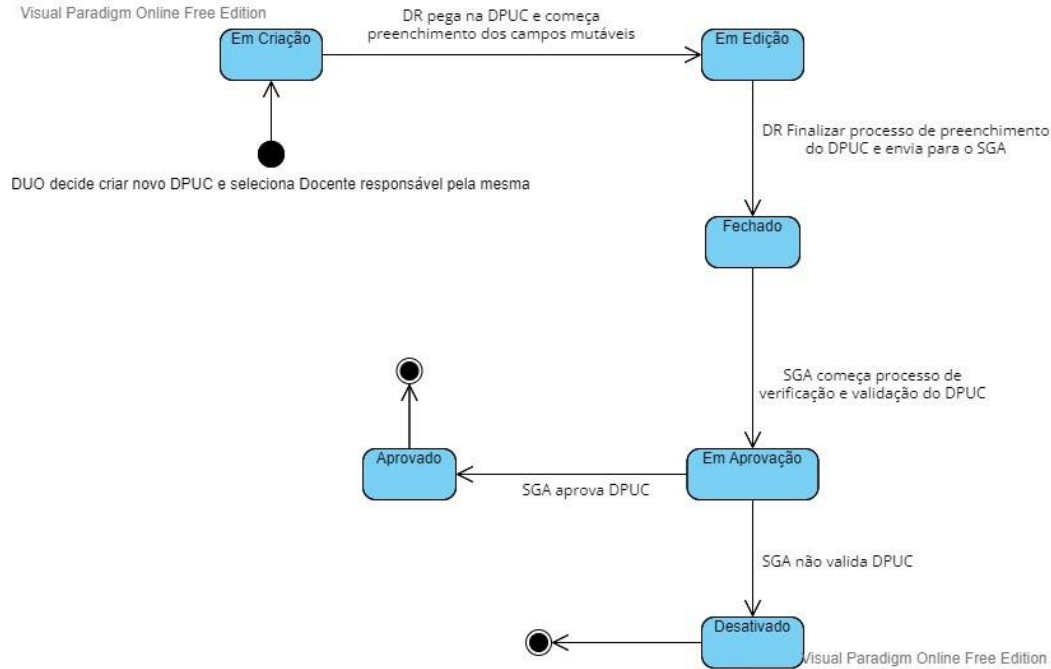

Grupo 6

# Introduction

- With this presentation our aim is to provide you the insights on our development.
  - What we had to change
  - The progress so far
  - The future steps

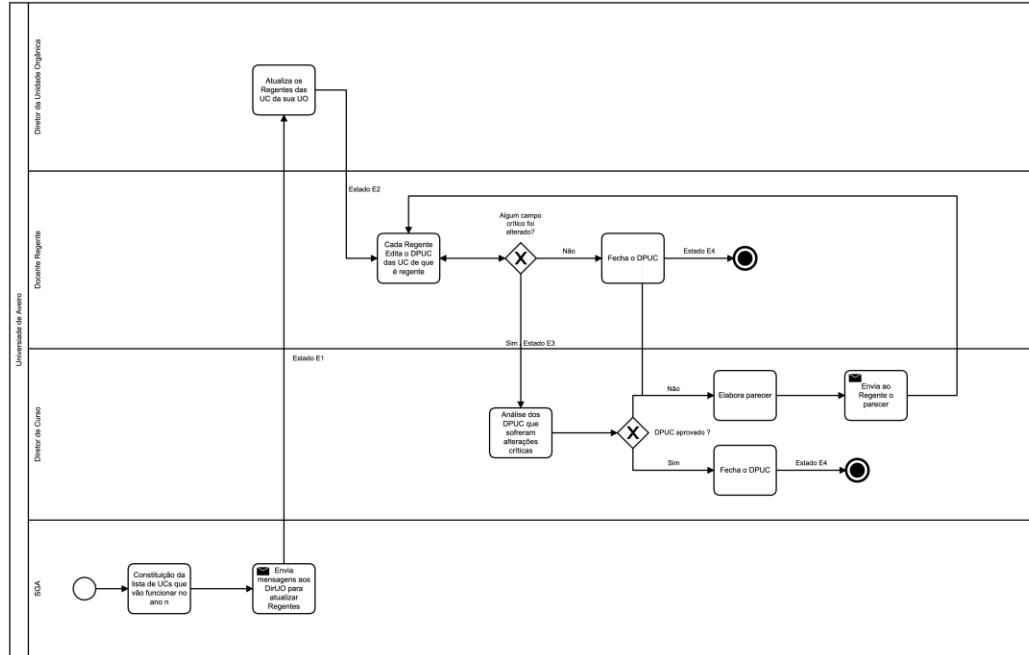

# The new Inception

- Considering all the actors and procedures necessary to approve a new DPUC, the team focuses now in two main Use Cases:
  - Creation of a DPUC
  - Edition of a DPUC

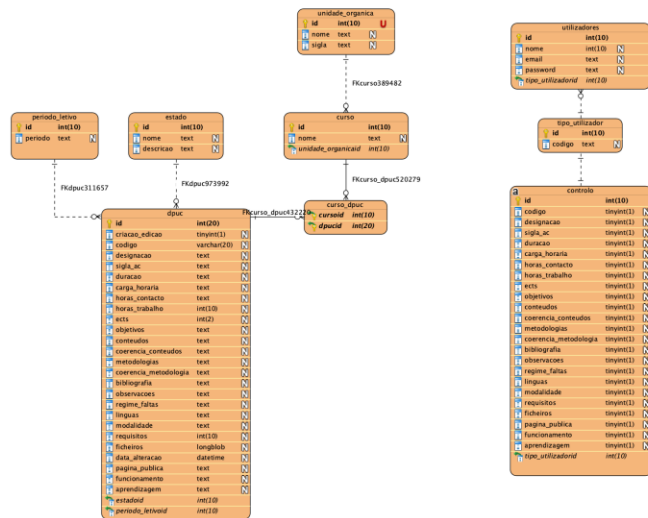

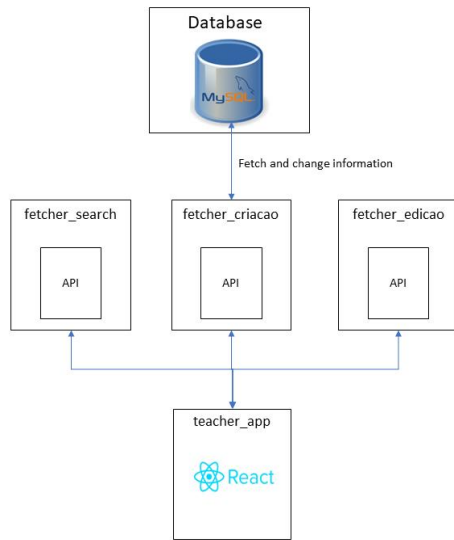

# Creation of a DPUC

# Edition of a DPUC

# Functional Requirements

Reference	Description
RF1	Creating a new UC (DUO)
RF3	Editing a current DPUC (DR)
RF6	Automatization of DPUC state change
RF15	See tips to help edit a DPUC (DR)

# Architecture & DB Model

# Implementation - Prototype

- Main views:
  - - Create UC
  - - Edit DPUC
  - - View all DPUC
  - - View a specific DPUC

# Next steps

- Create dashboard for the SGA
  - Approve and disable DPUC
  - Edit all DPUC fields
  - Change DPUC state (in case of an error)
  - See list of modified DPUCs that need approval
- Complete dashboard for DR/DUO
  - List of "opened" DPUCs
  - Filter a specific version
- Functionalities
  - Manage roles and authentications
  - Export DPUC to pdf and A3ES format
  - Complete de lifecycle of "Criação", with the states C3 to C6
  - Implement the 4 states lifecycle of "Edição" (E1 to E4)
  - Implement data analysis models for the search tool
